Chipley Fla., March 10th 1900

The Maidi Gras issues of the Pensaco-la Press and the Johnnai were splendid editions, handsomely designed and illustrated.

The difference between Massachusetts and Kentucky, says the Washington Star is, that Massachusetts produces boots and shoes, and Kentucky produces shoots and booze.

Just think of it! Four thousand Boers without artillery, stand off 45,000 British

St. Louis Humorist: There are lots of young grass widows and dog-fennel widows here Do you know the difference? A grass widow is a woman who leaves her husband; a dog-fennel widow is on whose husband who has left her.

A FRIGHTFUL BLUNDER.

Will often cause a horrible burn, scald, cut or bruise; Bucklen's Arnica Salve, the best in the world, will kill the pain and promptly heal it Cures old sores, fever sores, nleers, boils, felons, corns, all skin emptions; best Pile cure on earth; Only 25 cts, a box. Cure guaranteed. Sold

will altogether swallow up local issues this fall. The Democratic Larty stands towns, boards of trade, and all organizainsist on them no matter bow hot the na-

Newsboy." The train costs like fury, but the proprietors believe that it is a profitable investment.

T.-U. & C.: Let our Florida candidates brace up-their time is coming. We snall s on have State issues to discuss, and we can drop the South African war in a measure. There are enough important questions right at home to engage our thoughts and our future largely depends upon their proper solution. We are not forgetting Florida and her claims because we have allowed to rest lately. We are all at one now, and the next State convention should make history.

The tariffs have netted Mr. Harvemeye 's Sugar Trust only \$86,000,000 in twelve years. They netted Mr. Carnegle's Steel Trust \$20,000,000 last year and promise him \$40,000,000 this year. Clearly Mr. Harvemeyre has got ground for complaint. Why should the Republican party, for which he has done so much, discriminate against him in this fashion? Isn't he entitled to as large a license to levy upon the people as any campaign contributor in the country?-N.Y. World.

COLD STEEL OR DEATH.

There is but one small chance to save your life and that is through an operation," was the awful prospect set before Mrs. L. B. Hunt, of Lime Ridge, Wis., by her doctor after valuity trying trying to cure her of a frightful case of stomach trouble and yellow jaundice. He didn't count on the marvelous power of Electric Bitters to cure stomach and liver troubles but she heard of it. took seven bottles, was wholly cured, avoid surgeon's knife, now weighs more and feels better than ever. It is positively guaranteed to cure stomach, liver and kidney troubles and never disappoints. Price 50 cents, at W. L. Farrior's drugstore.

The Gainesville Sun says, and truly too, "the newspapers of a town are its looking glasses. It is here you see yourself as others see you. You smile on them and they smile on gon, you from non them and you are repaid in kindness. They are the reflet of the town. If the town is doing business, the newspaper will show it in its advertising columns. If the merchants are spiritless, shiftless fellows whose stores are immbles of jank and jam, the newspapers will show it by the lack of space they take. If you want the world to know you have a live town you can only let it be known through the newspapers." h marsones.

John Hiller

GOOD MEN WANTED.

are needed it is in public office. Nothing speaks better for a city, county or state than a set of able and honorable officials who look after the public welfare.

But too often it is the case that the political shysters gets in his wire-pulling work that he may feed at the public crib, and the administration of public affairs is not exactly what it should be.

Blind political fealty is too often used as a lever to boost men into office whom the people do not want. Undesirable men sometimes manage to get the nomination by hook or crook, and if any respectable person remonstrates he is charged with disloyalty. This charged is purposly used to browbeat men into voting for candi-

dates whom they know are unfit for office The result of this is that a great number of the very best of citizens have nothing whatever to do with politics. This is not as it should be, for they are the very ones who should be the most active.

There is such a thing as too much poliitics, and no party, however strong, is per fectly secure. For example, the state of Kansas was overwhelminly republican and the republican party believed it had without artillery, stand off 45,000 British troops for ten days! Was there ever a more gallant fight? Do not men who can battle and die like this, deserve to retain freedom?

St. Louis Humorist: There are lots of and the control of the state was 82,000 a few years ago. But voting the ticket, "yaller dog and all," and the election of professional politiciaus who were unfit for office and before the Kansas republicans were sware, the state was swept away from them and ther "statesmen" were "out of a job."

a job."
The safe method to pursue is to select the very best men available to fill the public offices. Select men of integrity, men of worth, men in whom people have confidence and who will administer the affairs of the people it a straight forward, economical and business-like manner.—Pensacola Press.

A good roads convention has seen call ed to meet at Orlando, on March 22 and 23. Every citizen and every industry in the State of Florida is vitally interested in the condition of the public highways, and it is believed that incalculable benefits will be derived from discussion and conference over this important question. It Local politicians must not run away is desired that the Commissioners in each with the idea that the national campaign | county in the State appoint one or more delegates to attend; also, that all cities, for decent and honest candidates and will tions having for their object the public good, to send representatives.

> ernor, have only three months in which to shake the delegate from the tree, and of progressive education.
>
> "J. M. Guilliams." from now on the still hunt will be disturbed by the active beating of the bush.— Times-Union and Citizen.

DOCTOR

Ask your physician this ques-tion, "What is the one great remedy for consumption?" He will answer, "Cod-liver oil." Nine out of ten will

answer the same way. Yet when persons have consumption they loathe all fatty foods, yet fat is neces-sary for their recovery and they cannot take plain codliver oil. The plain oil disturbs the stomach and takes away the appetite. The disagreeable fishy odor and taste make it almost unendurable. What is to be done?

This question was answered when we first made

SCOTT'S **EMULSION**

of Cod-Liver Oil with Hypo-phosphites. Although that was nearly twenty-five years ago, yet it stands alone today the one great remedy for all affections of the throat

and lungs.

The bad taste and odor have been taker, away, the oil itself has been partly digested, and the most sensitive stomach objects to it sarely. Not one in ten can take and digest the plain oil. Nine out of ten can take SCOTT'S EMULSION and digest it. There why it cares so gest it. That's why it cures so many cases of early consumption.

Even in advanced cases it brings comfort and greatly prolongs life. SCOTT & BOWNE, Chemists, New York.

VALTER R. GILLETTE

INDORSEMENT OF PROF. McBEATH

The press of the State generally has indorsed the candidacy of Tom F. McBeath to succeed W N Sheats as Superintendent of Public Instruction,

These indorsements have been made in a non-partisan manner, showing the desire to eliminate politics in the administration of this office.

An illustration of the esteem in which Professor McBeath is held, is shown by the following letter from Prof. J. M. Guilliams, vice-president of the Chattanooga Normal University of Chattanooga Tenn.:

insist on them no matter how hot the national election may be.

Why is it that Great Britain seems mere willing to make concessions to the United States in regard to the Nicaraguan Canal than our own executive seems willing to accept? It is stated on good authority that Lord Salisbury is willing to agree to fortifications if he is asked. Why will not Hay ask him?

The fastest train in the world is being run by a newspaper, the Memphis Commercial-Appeal, to deliver its papers ahead of its competitors. It makes 145 miles in 143 minutes, and is called "The Newsboy." The train costs like fury, but

The above letter of Professor Guilliams is an unselfish and straightforward testimonial of Prof. McBeath's ability as an educator, carrying also much weight, for Prof. Guilliams is a prominent teacher, occupying an exalted position in one of the great schools of the South .- Key West Inter-Ocean.

A MONSTER DEVIL FISH

Destroying its victim, is a type of constipation. The power of this murcerous malady is felt on organs and nerves and muscles and brain; there's no health till its overcome. But Dr. King's New Lite Pills are a safe and certain cure. Best in the world for stomach, liver, kidneys and bowels. Only 25 cents at W. L. Farrior's

A TAX ON INTELLIGENCE.

The advance of about 80 per cent in the price of white paper, by the paper trust, falls most burdensome on puplishers, as up to this time there have been but few cases of newspapers or periodicals being raised in rates. This, however, can not continue always. The time will come, if the power of the trust is exerted toward further exactions, when pullshers will be forced to increase their charges, and then will follow the usual result of burdening the consumer. Already we see in many directions curtailment in the proportions of publications, inferior quality of paper and other protective measures.

Sentiment does not go for much where money is scented as the hound scents blood, but certainly the off-repeated statement that the tax upon white paper is a tax upondatelligence should have its weight in curbing the greed of a lifeturers, and if his cannot be done in securing from a agrees an act placing wood pulp and white paper on the relief.

Congressman Shackleford's bill to secure this end, or some other equality as effective measure, should certainly pass, and if it does, the gentlemen who vote for it will be called blessed by the parents who must buy school books; as well as the men and women who want their newspapers, their books and their magazines.—Pensacola Press. cases of newspapers or periodicals being

A NIGHT OF TERROR.

"Awful anxiety was fest for the widow of the brave Gen. Baraham of Machias Me., when the doctors said she could not live till morning" writes Mrs. S. H. Lincoln, who attended her that fearful night. "All thought she must soon die from paeu monfa, but she begged for Dr. King's New Discovery, saying it had more than once saved her life, and had cured her of consumption. After three small doses she slept easily all hight, and its forther use completely cured-her." This my velous medicine is guaranteed to cure all throat, chest and lung diseases. Only 50c and \$1.
